---

### SUMMARY

Full-Stack Developer with hands-on experience designing, building, and deploying production-ready web applications using React.js, Node.js, Express.js, and PostgreSQL. Proven ability to develop secure REST APIs, implement authentication and authorization workflows, and deliver responsive, user-centric interfaces. Experienced in translating real-world requirements into scalable software solutions through internships and independent full-stack projects. Strong foundation in backend integration, database design, and API-driven architectures.

---

### TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, PostgreSQL (Supabase)

Tools: Git, GitHub, Postman, Vercel, AWS (Foundational)

---

### EXPERIENCE

#### Web Developer Intern — Zidio Development (Remote)

Jul 2025 – Sep 2025

- Developed full-stack features using React.js, Node.js, Express.js, and REST APIs for client-facing applications.
- Built and maintained 10+ reusable React components, improving UI consistency and development efficiency.
- Implemented backend API endpoints and integrated frontend with server-side logic.
- Optimized database queries and API routes, reducing response latency by approximately 15–20% during testing.
- Collaborated in Agile sprints, participated in code reviews, testing, and technical documentation.

#### Frontend Developer Intern — Skillbit Technologies (Remote)

May 2025 – Jun 2025

- Built responsive user interfaces using React.js, HTML, CSS, and JavaScript.
  - Developed reusable components and client-side logic for dynamic user interactions.
  - Integrated frontend components with backend APIs and authentication workflows.
  - Improved cross-browser compatibility and UI consistency across devices.
  - Worked closely with designers and backend developers to deliver production-ready features.
- 

### PROJECTS

#### CyberSuraksha – Multilingual Cybercrime Reporting Platform [[link](#)]

Tech: React.js, JavaScript, Node.js, Express.js, Supabase (PostgreSQL), REST APIs

- Built a full-stack web application to simplify cybercrime reporting with a focus on real-world usability.
- Developed a responsive React.js frontend and integrated it with Node.js + Express backend services.
- Designed and implemented RESTful APIs for report submission, validation, and data retrieval.
- Integrated Supabase Auth for secure authentication and PostgreSQL for relational data management.

#### Escape Room Coding Game – Gamified Learning Platform [[link](#)]

Tech: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, JWT

- Developed an interactive coding-based game to teach JavaScript, HTML, and CSS through logic-driven challenges.
  - Built the frontend using Vanilla JavaScript, implementing timers, event-driven gameplay, and challenge handling.
  - Implemented a Node.js + Express backend with JWT-based authentication and secure password hashing.
  - Used MongoDB (Mongoose) for persistent user data storage.
- 

### EDUCATION

- Bachelor of Technology in Computer Science & Engineering | Nagpur Institute of Technology, RTMNU, Nagpur | 2022 – 2026 | CGPA: 8.0
  - Hsc | Marotrao Mude | 2020 – 2022 | 79%
  - Ssc | Somalwar High School | 2020 | 92%
- 

### CERTIFICATIONS

- AWS Academy Graduate – Cloud Foundations
- AWS Academy Graduate – Data Engineering
- AWS Academy Graduate – Cloud Operations
